Project Goals

Goal	Year To Date Progress

Describe one or two significant program wins and impacts:

What challenges did you face? Describe any unexpected barriers or challenges in implementing the project as originally conceived.

If your project objective included mitigating economic barriers to programs, services and supports, were you able to identify participants who fit your criteria? Please explain your process as to how you ensured you were serving the targeted population, if applicable.

How did you identify W5K as a project funder?

Stories help us continue to fundraise to support programs like yours.

Please provide (anonymously, if necessary), participant statements from at least one person about how they have benefitted from the program. For participants who agree to share, photos are also greatly appreciated.

Can you suggest a survivor(s) from your program, if applicable, who would be willing to be considered to participate in W5K social media and other marketing efforts? If so, and with their permission, please include their name, contact information, and a short description of why you suggested them.
